

HIGH Q GREENHOUSES INFORMATION SHEET

IRESENE

This dark purple-leaved accent plant fills containers beautifully. It can also be used directly in the garden as a spreading prostrate groundcover.

Purple Lady

Flowering Time	<ul style="list-style-type: none">• Grown for its foliage
Habit	<ul style="list-style-type: none">• Dark purple and red leafed accent plant• Low spreading plant that fills in nicely and cascades as the branches get longer and heavier - 15-20cm (6-8") tall, with a 0.9 to 1.2-m (3-4') spread
Requirements	<ul style="list-style-type: none">• Light – Full sun to part shade• Soil – Well drained with a pH 5.5 – 6.3 and a medium initial nutrient charge• Water – Let soil dry somewhat between watering – do not allow wilting• Fertilizer – Apply 100-150 ppm N from 15-0-15 twice weekly once plants are established• Temperature – Days at 18-24°C/65-75°F; nights at 16-18°C/62-65°F• Growth Rate –• Regulators –• Pests & Diseases –• Pinching –
Application	<ul style="list-style-type: none">• Grower: Cells, 4-6" pots, baskets, mixed containers• Consumer: Mixed or singly in baskets• Containers or patio pots, gardens and edging• Consumer Tips: Higher light results in deeper purple leaves with crinkling and needs more water• More shade results in greener, larger leaves with more upright growth habit• Feed regularly with an all-purpose fertilizer – bright red foliage indicates that the plant is underfed
