

# HIGH Q GREENHOUSES INFORMATION SHEET

## ORNAMENTAL GRASS – ECHINOPS ‘ARCTIC GLOW’

---

**Flowering Time**

- July - August

**Habit**

- 2.5-3 ft height
- 0.75-1.5 ft spread

**Requirements**

- **Light** – Full Sun
- **Soil** – average, well drained
- **Water** – Dry to medium
- **Maintenance** – Low
- 

**Application**

- Easily grown in average, medium, well-drained soils in full sun. Tolerates wide range of soils, including poor dryish ones, as long as well-drained. Avoid rich soils. ‘Arctic Glow’ is an erect, clump-forming globe thistle cultivar which typically grows to 3’ tall on stiff, reddish stems. It is more compact than the species. Silvery-green, slightly-spiny, deeply-dissected leaves (to 14” long) are downy-white below. Globular, thistle-like, white flower heads (to 2” diameter) bloom at the stem tops in summer.
-
